Bluefort were thrilled to exhibit and engage at the NHS Cyber Security Forum hosted by Convenzis. This event provided us with an invaluable opportunity to engage directly with key stakeholders within the NHS and the broader healthcare sector, on the critical topic of cyber security.

The professionalism and organisation of the Convenzis team was evident. From the welcome at the door, through to the agenda, speakers, topics and format of the day, it was clear Convenzis have earned vast amounts of respect from delegates and exhibitors alike.

With such a diverse group of experts and decision-makers in attendance, we were able to engage in plenty of meaningful discussions and share knowledge. Our exhibitor stand received plenty of visitors and we left with a significant number of follow up meetings in the diary.

Thank you to the Convenzis team for organising such an insightful event and to all attendees for their attendance and engagement. Together, we can make significant strides in protecting our precious healthcare systems from cyber threats.

BlueFort

“

I thought the conference was excellently organised and put us in front of the right audience. The best part about Convenzis is how the team make sure the simple things are done well. Many conference organisers don't do this but it makes a huge difference when a team takes you through the end to end process in a very personal way and ensures you are making the most of potential opportunities, providing you with better returns. I also liked how responsive the team are and no matter who you speak to, you feel like they are giving you white glove treatment. Thank you to all the team for your support.

We had an excellent experience as an exhibitor with Convenzis. Their team was incredibly efficient and supportive in marketing and promoting our business. It was clear they genuinely cared about ensuring we had a positive experience. Thanks to their efforts, we received quality leads at the event, which we are confident will develop into strong relationships. We highly recommend Convenzis for their professionalism and dedication.

“

Being the first time we exhibited at the Virtual Wards Conference, we were very impressed with the quality of connections and the fantastic networking opportunities it provided to us. The organisation of this event has just been fantastic from start to the end, communication was always quick, easy and efficient, our needs always met. The follow up opportunities post event were a very welcomed addition – we call this event now ‘the event that just keep on giving’. Thank you so much to the amazing Convenzis team and especially to Sarah Harrison for going above and beyond to assist us.

Una Health

Working with the Convenzis team is both straightforward and productive. They have great market knowledge and consistently deliver successful events specifically to niche areas within the NHS. This focus adds significant value for both attendees and sponsors.

“

I attended and presented at the '12th NHS Primary Care Transformation Conference: The Foundations for Better Care' in June 2024. This event was well-organised and specifically tailored to NHS roles that can influence change. The stands were well-spaced, and the catering throughout the day was excellent. The conference room was light, airy, and well-arranged for a day of presentations and interactions with speakers. Following the event, we received a post-event brief, and the service provided by Convenzis has been outstanding throughout.

Redmoor Health

As a proud sponsor of the Convenzis EPR Summit we at Proact are thrilled to have been part of such an impactful and innovative gathering. This event has once again proven to be a cornerstone for advancing healthcare practices, fostering collaboration, and inspiring breakthroughs.

Our experience as a sponsor has been incredibly rewarding. The opportunity to connect with leading professionals, engage in meaningful discussions, and showcase our latest solutions has not only enhanced our visibility but also reinforced our commitment to improving healthcare outcomes. The event's organization was impeccable, providing seamless networking opportunities and a platform to highlight our contributions to a wider audience. We look forward to working with Convenzis again in the future.

“

As a sponsor of the Convenzis Integrating Care Conference, we were delighted to support such a dynamic and insightful event. The conference and our dedicated speaking slot provided an excellent platform to connect with healthcare leaders and explore innovative strategies for building interoperable NHS systems. The engaging discussions and forward-thinking solutions presented have reinforced our commitment to supporting integrated care initiatives. We are proud to contribute to the advancement of healthcare integration and look forward to our continued collaboration with Convenzis, the NHS, and industry partners.

At Medica, we highly value the professionalism and efficiency that Convenzis consistently delivers. Our attendance at the NHS Radiology Summit in May proved to be very beneficial, providing us with significant opportunities for connecting with key stakeholders and conducting market research. The support we received from Dan and his team before, during and after the summit was key in ensuring its success and will contribute to our ongoing growth at these events. We highly recommend Convenzis for their customer service and we look forward to exhibiting at future events.

“

Having developed a digital platform to help Oncology teams manage MDTs more efficiently, we asked the team at Convenzis how we could gain stakeholder feedback on the product. They suggested a roundtable at the NHS Oncology Event. They gave us access to the delegate list, allowed us to identify key individuals and they did the rest. The outcome was a highly productive session, with senior and engaged delegates. Very bespoke and very valuable.

FBK Medical

The 'NHS Integrating Care Conference: Building interoperable NHS systems' was the first Convenzis event we supported. The event itself had strong attendance from across the NHS ICB's, but it was intimate enough to support conversations with ICB leaders about their challenges and for us to understand how we can support them in overcoming those. Our team came away with a lot of insight, and introductions to ICB leaders who were interested in follow-up conversations. This was an excellent introduction to a Convenzis event and we'd absolutely consider working with them in the future. Thank you Daniel and the Convenzis team!
