

Rackspace Sovereign Healthcare Cloud

Turnkey solutions that underpin cloud and digital transformation.

More than ever, the UK healthcare and NHS sector are looking for cloud solutions that can help ensure sovereignty by being exclusively delivered within UK borders. Rackspace Technology has been delivering to and investing in the UK healthcare sector for over a decade. The latest investment, Rackspace Sovereign Healthcare Cloud, is a turnkey, hybrid cloud solution built to meet UK security and compliance needs. This modern cloud solution is enhanced by dedicated UK Sovereign teams and air-gapped management environments.

- 450+ specialised industry certifications, including CCNAs and GIACs in Cyber Defence, Digital Forensics & Incident Response, and Penetration Testing

Fanatical Experience®

Experts on your side, doing what it takes to get the job done right. From first consultation to daily operations, Rackspace Technology combines the power of always-on service with best-in-class tools and automation to deliver technology when and how you need it.

Key Benefits

Benefit	Details
Isolated platform	Platforms that are isolated from all other global platforms, including data, support and infrastructure kept within UK borders.
Reduced complexity	End-to-end service with everything required to source, deploy, manage and secure compliant cloud IaaS workloads.
Increased security	Complex technology and service environments that have been independently assessed against NCSC recommendations for securing sensitive data.
Reduced cost	Pre-designed and inclusive services that remove the need for specialist resources and lengthy technical and service design projects.
Monitored compliance	Sovereign solutions and services delivered by government service experts, using embedded accredited tools and policies, monitoring and enforcing compliance throughout.
Hybrid cloud	Dedicated and community private cloud as well as public cloud supports organisations on their personal cloud journey with the right platform for the right workload.
Accelerated innovation	Combination of standard services and technical solutions that have been pre-designed, templated and tested to minimise the time taken to adopt your cloud platform.

Take the Next Step

Let's talk about how Rackspace Sovereign Healthcare Cloud can help you complete your patient-centric digital transformation.
