

MEDIZZY

Inspire, Motivate & Educate

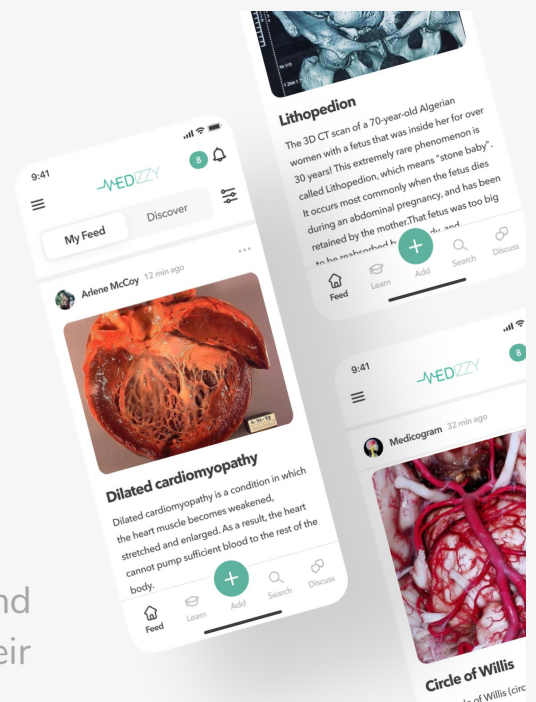

What do we do?

MEDizzy is a **medical education and social network** for students and professionals who want to expand their knowledge conveniently and effectively.

It is free to join and gives instant access to study questions, global discussions, real cases, and the latest research.

We bring doctors, nurses, paramedics, EMTs, and medical students together to advance their collective **knowledge without barriers**.

Our Mission

We **inspire, motivate & educate** the current and the future generation of healthcare professionals.

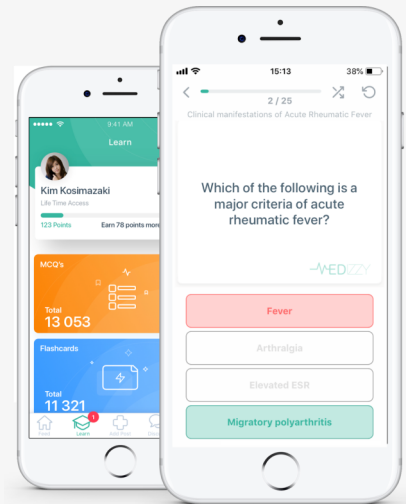

We strongly believe that **easy access to medical education** is the future of medical learning and that makes us create innovative learning tools to empower the knowledge and potential of medical learners.

Our aim is to provide professional, effective and **innovative medical education to every doctor, nurse or medical student around the world**.

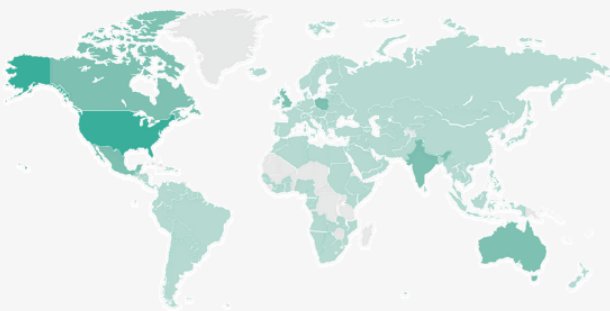

How do we help to gain medical knowledge more effectively?

We offer a social learning mobile platform powered by the world's largest medical question bank, perfectly designed for medical exams preparation.

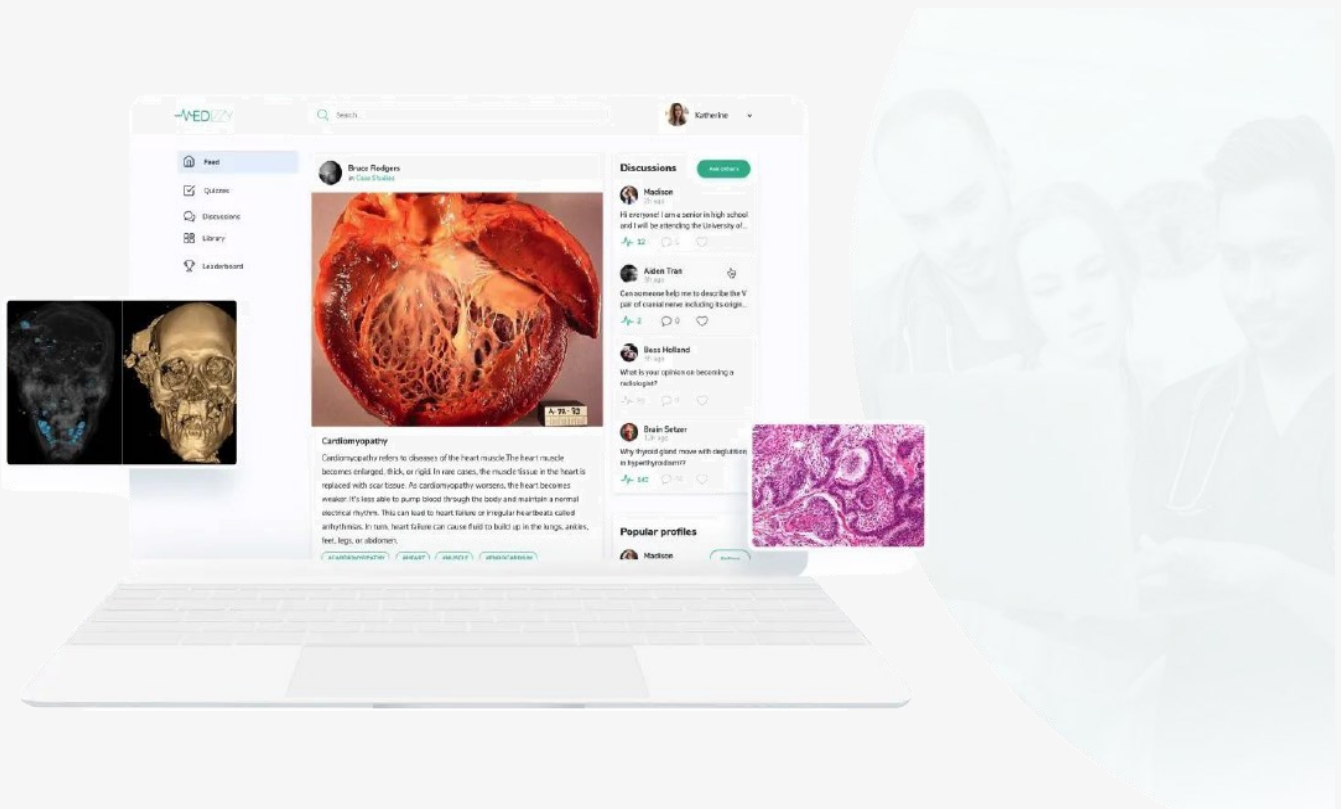

What have we achieved so far?

So far the app has been downloaded by over 500,000 healthcare professionals, mainly from USA, India and Middle East. We have built a wide network of partners with over 10 million doctors, nurses and medical students globally.

We have successfully collaborated with:

MEDIZZY
