devoteam

distributed cloud.

Adopting cloud at scale and maximising its untapped value.

Cloud is evolving fast. Companies may have started with a single small cloud instance. But that grew. And another public cloud was added. And enterprises still need to utilize its own data center to a certain extent.

that's why...

Devoteam offers a full spectrum of cloud services, so that companies can speed up innovation, drive business agility, streamline operations, and optimize costs.

concretely...

Set the scene

Design a value-driven journey to ensure you meet the expected business outcomes and establish strong foundational practices.

digital roadmap, cloud services definition, cloud academy framing, target operating model, governance

Build the foundation

Set right the foundations to get your workloads to cloud rapidly and securely by selecting the right infrastructure for your business needs.

cloud center of excellence, foundation definition, cloud foundation set up, cloud automation factory, implementation of finOps principles

Enforce security and compliance

Integrate security and full compliance inside cloud foundations and maintain required security level within the continuous lifecycle.

identity & access, data sovereignty & compliance, network security, security monitoring and remediation management, secured development environment

Modernise and accelerate

Ramp up your organisational speed and agility by restructuring architectures, applications and data for cloud.

hybrid & multi-cloud deployments, the power of containers, reach new insights faster, loosely coupled architecture, cloud native devOps, serverless & managed services

Operate and optimize

Adopt new ways of operating that push your cloud estate to ever higher levels of business performance and sustainability

cloud strategy office & cloud center of excellence, Infrastructure automation, vulnerabilities and failures detection, finOps, cloud financial management, sustainability with cloud

Innovate and scale

Use cloud as a digital transformation lever, creating a foundation for rapid experimentation, innovation and new business models.

smart products, innovative solutions from hyperscalers, cloud-enabled transformation, cloud, a no-brainer to become an enterprise platform, elasticity & resiliency
