Northern NHS Trust

A Secure Boundary for Future-Ready Healthcare

Challenge

1. **Protect sensitive data and meet compliance (DSPT, CE+)**
2. **Reduce costs by replacing legacy systems**
3. **Future-proof their network infrastructure**

Solution

Working with the NHS Trust, we designed, deployed and optimised the Secure Boundary solution - a centrally funded, cyber-secure service tailored to NHS needs.

> WhiteSpider are very knowledgeable and technically proficient. Always on hand when we need them. They've helped support us on multiple projects over the course of a five-year partnership. If we ever have a problem, I know their tech team is only a call away.
