ITPS Modern Workplace

Business challenge and value

Businesses rely on workplace solutions like Microsoft 365 to achieve productivity.

Most businesses do not utilise their Microsoft Modern Workplace subscriptions to their full potential, which can have a negative impact on their productivity and efficiency.

By working with ITPS, you can purchase your

Modern Workplace licenses directly through our online ITPS Marketplace, whilst benefiting from our range of additional consultancy, design, implementation and end-user support services, ensuring you get full use from your Modern Workplace subscriptions.

Product Description

Microsoft's Modern Workplace services include a range of tools to help businesses solve their IT problems through the intelligent and secure implementation of IT.

The key components include Microsoft 365, Windows 11 Enterprise, and Enterprise Mobility + Security services. As a direct CSP reseller, customers can purchase Microsoft 365 licenses directly through ITPS

and conveniently manage subscriptions through our self-service portal, ITPS Marketplace.

We also provide a number of additional consultancy, design, implementation and managed services, ensuring you get full use of your Modern Workplace subscriptions through our team of technical experts.

Why ITPS?

We're a Modern Workplace Solution Partner with the qualifications and accreditations to meet your needs. Combining skills and expertise with a robust

and reliable service delivery model that covers consultation, design, implementation and management of your M365 environment.

Get in touch with us today, we'd love to hear from you...
