

Digital Health as a Service (DHaaS) Platform

Case Study: Transforming Remote Healthcare Delivery -COPD Virtual Wards and the Healthy Islands Project

Dr. Ian McCabe

Project Lead & Research Fellow HIVE Lab, University of Galway Ciara Gormley

Customer Success Manager myPatientSpace

myPatientSpace

Mission: To be the leading platform for rapid deployment of innovative remote care models, transforming healthcare with accessible, scalable, and patient-centric solutions.

myPatientSpace

Comprehensive Digital Health Platform

Multi-Disease/Pathway No Code Platform

Purpose built for remote care models – virtual wards and hospital@home Smart patient engagement & seamless pathway automation/care-coordination

Compliant & Secure Medical Grade, Highly Configurable

Remote Disease Management – Real time monitoring

Proven across therapy areas Multi-Disease/Therapy

CVRM Renal/CKD, Diabetes/Cardio

Cancer Oncology, Surgery, Hematology

MSK Rheumatology, Orthopedics

Rare Diseases Chronic Pancreatitis

myPatientSpace

Modules and solutions

Galway COPD Virtual Pathway & Healthy Islands

myPatientSpace Case Study

The problem

"Trolley Crisis"

- In May 2023, over 11,800 patients were admitted to Irish hospitals without a bed¹
- Population growth and ageing of the population will increase demand further here and globally
- Hospital is most expensive B&B in town – from a financial & human standpoint
- Hospitals are built for acute care
 not chronic disease management

Overview COPD Pathway

- Goal reduce COPD Admissions and improve care for patients
- Started April 2024
- 3 Arms:
 - Early discharge
 - Admission avoidance
 - Readmission prevention
- Consultant Led Governance Dr. Sinead Walsh.
- Ethics and Governance.
- myPatientSpace Platform, kit and managed tablet.
 - HSE (eHealth Ireland) approved RPM, DPIA in place
 - Monitored by Nursing staff 8:00-16:00 Mon-Fri
- BP, Sp02, Thermometer.

Enablers

- Enthusiastic & competent team members: specialist nurses
- Galway Hive Team
- Care at home supporting patient recovery, overwhelmingly preferred by patients
- Patient testimonials
- Alternative care pathway: allows increased bed capacity in acute service, reducing health service pressures
- Cost effective
- Research opportunity

Patient Kit and Tablet

This can lead to your muscles becoming weaker and eventually it can become difficult to do much at all.

Results 47 Patients since April 337 Bed Days Saved 100% Patients would recommend the Virtual Ward

Awards/Posters/Press

Æ

Integrated

- Saves Hospitalization
- Saves Nosocomial Infections
- Saves Stress / Time / Money
- Saves the Planet, less kms travelled!

Home Health Clare Island - > Healthy Islands

- 3 miles from mainland
- 165 residents
- 1 doctor (1 day/week)
- 2 nurses

- Aged 1 95
- Broad spectrum of health needs

Clare Island Remote Care

- Remote BP and FitBit
- Seamless Webex Integration
- Support Remote Consultant
- Health Awareness
- Drone Delivery/Robot
- 8 new diagnoses of hypertension
- 30 Remote Consultations

Healthy Islands-Doctor can remain on the mainland

Patient in island clinic – device data upload to myPatientSpace using Staff App.

Chronic Disease Management.
