

Inspection and Regulation The Key to Shaping Positive Practice in Prisons

Dr Liz Walsh, RCN Professional Lead for Justice and
Forensic Nursing

Anna Cowley, Dayni Johnson & Jo white
Health & Justice Inspection Team, CQC

Background

- ◆ How did we get here?
 - Recent conversations
 - Informal feedback from nurses
 - Anecdotal experiences
 - Reflection on inspection and regulation

British Journal of Nursing 2009

Walsh E (2009)

Prison Health Care: 'it's time to water the flowers'

British Journal of Nursing, 18(4), 218

Is innovation stifled by the need
to 'get the basics right'
OR....has the pandemic
hastened innovation and
creativity?

Positive Practice

- ◆ Monthly consultant clinics
- ◆ Mother and baby services
- ◆ Access to Trust IT for clinical results
- ◆ Being creative and flexible with workforce
- ◆ Implementation of PNA/Supervision
- ◆ Care of people in segregation
- ◆ Wider MDT working with officers

Expected or Exceptional?

Consider

- ◆ How can we share good practice locally, nationally, internationally?
- ◆ What do we already do?
- ◆ What can we do more of?
